1 INTRODUCTION

The Australasian EPD Programme is an independently operated public limited company to provide a credible and internationally recognised communication platform for organisations using Life Cycle Assessment and related techniques. The company's shareholders are the Life Cycle Association of New Zealand (LCANZ) and the Australian Life Cycle Assessment Society (ALCAS). The company is governed by a Board of six Directors who are LCANZ and ALCAS members and one Director nominated by IVL – the owner of the International EPD® System (IEPDS).

Harmonisation of methodology for EPDs within Australasia and international markets is a key founding principal of the Australasian EPD Programme. The Australasian EPD Programme maintains a strategic partnership with the International EPD® System (IEPDS), to enable a harmonised and efficient platform for global EPD development and communication. The technical rules and operating procedures for EPDs developed and registered with the Australasian EPD Programme are, wherever feasible, aligned between the Australasian EPD Programme and the IEPDS. EPDs registered with the Australasian EPD Programme are published on the websites¹ of the Australasian EPD Programme and the International EPD System for global and local market visibility. The Australasian EPD Programme has its own Board of Directors, Secretariat and Technical Advisory Group who collaborate with the International EPD® System's Secretariat and Technical Committee.

1.1. OBJECTIVES

The technical instructions of the International EPD® System are defined in the General Programme Instructions (GPI) of the International EPD® System. The Australasian EPD Programme has determined that:

- The Australasian EPD Programme shall follow the General Programme Instructions (GPI) of the International EPD® System, in addition some regionally specific rules shall apply to EPDs registered in Australasia, these are defined in Section 2 below,
- Section 2.1 of the GPI of the International EPD® System concerns the administration of the IEPDS. This section does not apply to the Australasian EPD Programme. The administration of the Australasian EPD Programme is described on the Australasian EPD Programme website¹. The Board of Directors of the Australasian EPD Programme are responsible for the governance of the Australasian EPD Programme, including issues such as costs, fees and member benefits.

The purpose of this document is to:

- Define the regionally specific instructions of the Australasian EPD Programme that differ from the International EPD® System;
- Provide a checklist for EPD developers to follow when applying the Australasian EPD Programme specific EPD requirements;
- Outline administrative and organisational variations to the applicability of the GPI in Australasia.

This document functions as an Australasian annex to GPI of the International EPD® System, and should be read in conjunction with the current version of the International EPD® System GPI document. The regionally specific requirements set out in Section 2 below are applied in practice as exceptions to instructions contained in the GPI, and they are applicable to all EPDs registered in Australasia with the Australasian EPD Programme.

Responsibility for the maintenance, updating and technical interpretations of this document lies with the Australasian EPD Programme Technical Advisory Group (TAG). Changes to this GPI Annex can only be made in consultation with the Australasian EPD Programme Board of Directors, and the Secretariat and Technical Committee of the International EPD® System.

The content of the GPI and this Annex are reviewed and updated approximately every one to two years to ensure market stability and also to incorporate the latest developments in standardisation and LCA methodology.

The GPI document and this Annex can be downloaded from www.epd-australasia.com and www.envirodec.com.

References to this document are recommended to be: Instructions of the Australasian EPD Programme – a Regional Annex to the General Programme Instructions. (2017) Version 2.0 Published 1.05.2017.

The website of the International EPD® System is www.environdec.com

1.2. HIERARCHY OF DOCUMENTS

Instructions for the Australasian EPD Programme are defined in the General Programme Instructions of the International EPD® System, in conjunction exceptions and variations described in Section 2 and 3 of this regional annex. In practice the GPI and this regional annex are applied as follows:

- The Australasian EPD Programme follows the General Programme Instructions (GPI) of the International EPD® System, with the exceptions described in this regional annex document (Section 2 and 3 below).
- Where there is any potential conflict between this Australasian document and the International GPI, the requirements of this document shall take precedent.

2 AUSTRALASIAN SPECIFIC EPD REQUIREMENTS AND REGIONAL CHECKLIST

The requirements in Figure 1 below apply to EPDs registered with the Australasian EPD Programme. These regional requirements are exceptions to instructions specified in the GPI of the International EPD® System, as discussed in Section 1 above.

Figure 1 is formatted as a checklist template. Organisations developing EPDs can complete column 'EPD Compliance Status' to document compliance with AEPD Programme requirements during the EPD verification process.

3 AUSTRALASIAN VARIATIONS TO THE GLOBAL PROGRAMME INSTRUCTIONS OF THE INTERNATIONAL EPD® SYSTEM

The instructions in the GPI of the International EPD® System are applicable to the Australasian EPD Programme as discussed in Section 1 above, with the exception of Australasian EPD Programme Specific EPD Requirements defined in Section 2 above. From an organisational perspective, other regional variations to the GPI in Australasia are described in Figure 2 below.

Figure 2

Australasian EPD Programme variations to the GPI	
International GPI Section	
Sections 1.0 and 2.0	<p>Program Objectives and Organisation</p> <p>The objectives and organisation of the Australasian EPD Programme, including costs, fees and registration documents are available at http://www.epd-australasia.com</p>
Section 2.1.10 and Annex E	<p>Programme Logotype</p> <p>The Australasian EPD Programme logotype is applicable for use by organisations registering EPDs in Australasia with the Australasian EPD Programme. Contact the Australasian EPD Programme Secretariat for logotype files as described in GPI Annex E.</p> <div style="text-align: center;">  <p>ENVIRONMENTAL PRODUCT DECLARATION</p> </div>
Section 3.0	<p>Development of PCRs</p> <p>The Australasian EPD Programme recommends Product Category Rule (PCR) development takes place in line with the procedures defined in the International GPI, overseen by the Technical Committee of the International EPD® System.</p> <p>Organisations in Australasia interested in PCR development are requested to contact the Secretariat of the International EPD® System to develop PCRs.</p>
Section 4.13	<p>Single issue Declarations</p> <p>Templates for single issue declarations (e.g. Climate Declarations) are provided by the Australasian EPD Programme. Contact the Australasian EPD Programme Secretariat to request single issue declarations.</p>
Sections 5.5.1 and 5.5.3	<p>Competence Requirements and Approval of Individual Verifiers</p> <p>Qualification criteria and competence requirements for individual verifiers of the Australasian EPD Programme are defined in the document 'Application Form for Individual External Verifiers' available for download at: http://www.epd-australasia.com/creating-epds/verification</p> <p>Individuals applying to operate as verifiers for Australasian EPD Programme should complete this application form and submit the required documentation to info@epd-australasia.com.</p> <p>Applications are assessed and applicants approved by the Technical Advisory Group of the Australasian EPD Programme.</p>
